

Ekahau Site Survey & Planner

The Industry Standard Tool for Enterprise Wi-Fi Design

Why Ekahau?

- First-in-market site survey tool → Most experienced tool provider
- Easiest user interface on the market → Start using more quickly - Get more done in less time
- Reliable and scalable to 100+ hours of survey data. According to our customers, Ekahau Site Survey is the only survey tool that can handle huge stadiums, hospitals, and universities.
- Stability: Field work should never be interrupted by blue screen of death - even under heavy load.
- Full Spectrum Analyzer integration with support for 2 simultaneous spectrum analyzers
- Instant troubleshooter combining Wi-Fi + spectrum (Real-Time Frequency Monitor)
- Survey Inspector → accurate post-survey Wi-Fi + survey analysis
- Open competing product project files
- Automatically import walls from CAD drawings
- Network capacity (BYOD) analysis
- Template-based reporting that takes your Word doc and fills in the blanks
- Automated, 3D network planning according to your performance and capacity requirements
- 1000+ enterprise access points and antennas
- Truly 3D planning including antenna up/downtilt and height of walls
- Easy-to-read, beautiful crystal-clear heatmaps
- Throughput site surveys with Wi-Fi optimized iPerf client/server
- The go-to tool for Cisco/Meraki, Aruba, Aerohive, Extreme, Meru/Fortinet

○ Customer support and responsiveness

Our response time to bugs is almost immediate.

If you want new access points or antennas to the product, for example, you'll get them in a couple of days.

○ Product updates & additions

Ekahau releases software once a month and a major update approx. every 3 months. Within the last 3 years, we have done 500+ additions to the product

Absolutely the best live surveying tool around”

- *Bruce Alexander / Cisco Systems*

“Using <competing product> is like pulling your nails out.”

- *Justin Cetko, WLAN Consultant / Skyline Networks*

“The simplest and most effective way to design, evaluate and document Wi-Fi.

- *Blake Krone / Experienced wireless consultant*

"Love working with such an awesome software team! - stable, speedy, reliable, features that you need."

Samuel Clements, Practice Manager, Mobility, Presidio

“This tool rocks! For years, our field teams and our partners have been using Ekahau Wi-Fi Tools.

- *William Aguilar / Extreme Networks*

“Happy to say it’s the best survey/planning tool I’ve worked with.”

- *Tom Berry / Meru Networks*
